Safety classification: EN ISO 20345:2011 S3 SRC
Fit: Wide
Toecap: Composite
Penetration protection: Soft protection in APT
Upper: PU-coated leather
Outsole: Dual-density PU
Insole: SSCC memory foam
Waterproof: No
Adapted for: Building, construction and tougher work

Product benefits:

A sound protective boot at a very competitive price. The boot boasts a PU-coated leather upper with a moisture-wicking textile lining, as well as a dual-density PU sole offering good shock absorption properties. The insole is Monitor's classic SS2 sole, produced in dual-density PU and with fantastic shock absorption. The toecap is made of a composite material while the puncture resistance is provided by APT textile.
